DETAILED ACTION

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Since there was no response to the Board of Appeals decision rendered September 3, 2009, the obvious double patenting rejection of claims 1-6 and 20 over Application No. 10/930,487 is upheld, but all other rejections are reversed. Therefore, claims 1-6 and 20 are cancelled as they are viewed as abandoned because the time to respond to Board of Appeals decision is overdue. Thus, claims 10-19 are allowed and renumbered 1-10.

The following is an examiner's statement of reasons for allowance: The claims 10-19 are drawn to a rapamycin 42-ester with 3-hydroxy-2-(hydroxymethyl)-2-methylpropionic acid oral composition by the process disclosed in claim 10. There is no prior art disclosing the applicant's composition or process. The closest art is Azrolan et al. in view of Haeberlin and Madhavi et al. (all of record), in view of Hanabusa et al. (JP 10226615). Azrolan et al. teach an oral formulation of 42 ester rapamycin with 3-hydroxy-2-(hydroxymethyl)-2-methylpropionic acid as a tablet. Azrolan et al. does not teach the ranges of the water soluble polymer, surfactant and antioxidant, nor the specific antioxidant butylated hydroxyanisole (BHA) or butylated hydroxytoluene (BHT).

Azrolan et al. also does not teach citric acid. Haeblerlin et al. teach that citric acid in a range of 0.5 to 5% stabilize oral and parenteral formulations of macrolides (see abstract and page 4, lines 15-26). Madhavi et al. teach that BHA and BHT is extensively used as an antioxidant in the food industry because it is rapidly absorbed and can be used in combination with each other or other antioxidants such as citric acid (see page 277, section 5.2.2, first paragraph, lines 1-2; page 278, toxicological studies, lines 1-4; and page 283, paragraph 3, butylated hydroxytoluene, lines 1-4). The Board of Appeals find that the tablet taught by Azrolan et al. may be formulated using wet granulation, it is just one of a list of formulation. Azrolan provides no guidance as to what excipients and their amounts which should be included in a particular formulation. Thus, it is the inventive selection of the components and amounts of same in order to solve the problems identified by the Applicants that yield the presently claimed compositions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kendra D. Carter whose telephone number is (571) 272-9034. The examiner can normally be reached on 8:30 am - 5:00 pm.
